Addendum Table

#	Section	Text	Comment
1	p.19 5. Eligibility, Qualifications, Capacities and Readiness of Prime Proposer and Team	<p>At a minimum, bidding organizations will be required to should submit relevant Letters of Intent including an agreement with an LSE, funding agreements and other agreements that are evidence of the Proposer’s intended legal structure, a description of what roles various entities will play, and letters of support from each entity’s governing body. References are also required.</p> <p>An LSE is not required to be a formal member of a proposing team. However, there are certain functions and activities that a utility or other entity must handle (e.g. interconnection to the local power grid) and may potentially offer depending on the program design (e.g. a capital contribution, utility bill credits). The letter of support from the LSE should, at a minimum, confirm Proposer has a feasible interconnection opportunity and express support for any relevant enabling of project benefits (bill credits, tariffs, or other) within their system. Should a proposer be unable to meet the LSE letter of support requirement, the proposal should include detailed information on steps taken in this regard and all pertinent information on the LSE’s interconnection application process and proposer’s planned steps for compliance.</p>	Clarified requirements on LSE letter of support.
2	p. 44 Attachment 1: Required Submission Checklist	Letter from LSE, if applicable	Clarified requirements on LSE letter of support.
3	p. 64 Attachment 13: Proposal Scoring Criteria	<p>0 Points = No response was provided or Proposal neglected to provide a Letter of Support from an Electric LSE.</p> <p>1 – 2 Points = Proposal demonstrates Minimal support and details from an Electric LSE through a general Letter of Support for the project or provides minimal details on a step-by-step plan to complete the</p>	Clarified scoring component regarding LSE letter of support.
