**Low-Income Weatherization Program
Multi-Family Energy Efficiency and Renewables Component
Multi-Family Housing Administrator Request for Proposal 2022-RFP-83**

List of Proposals Received

July 15, 2022

The Request for Proposal 2022-RFP-83 for the Low-Income Weatherization Program’s (LIWP) Multi-Family Energy Efficiency and Renewables Component was open for Proposal submission from June 8, 2022 through July 13, 2022. Solicitation materials are available online at <https://csd.ca.gov/Pages/contractopportunities.aspx>.

LIWP is an energy efficiency and renewable energy generation program administered by the Department of Community Services and Development (CSD). LIWP consists of several program components, including the statewide Multi-Family Energy Efficiency and Renewables Component (Multi-Family Component), and is one of California’s Climate Investments. The LIWP Multi-Family Program Administrator provides technical assistance, project monitoring, and inspection of energy efficiency measures and solar photovoltaics installed in qualified low-income multi-family dwellings and common areas to reduce energy use and greenhouse gas emissions. The Administrator also disburses incentives to property owners upon satisfactory completion of scopes of work.

This program component has an initial allocation of approximately \$14.25 million from CSD’s Fiscal Year (FY) 2021-22 LIWP appropriation and will provide benefits to priority populations.

CSD received two Proposals. Proposer information listed below is in alphabetical order.

Proposer Name	Funding Amount Requested
Association for Energy Affordability	\$14,250,000.00
Community Housing Opportunities Corporation	\$14,250,000.00

Questions or comments may be submitted to LIWP@csd.ca.gov.
