The purpose of this CAPP Program Notice (CAPP-PN) Revision is to communicate updated CAPP Allocation determinations for individual Direct Access Electricity Load-Serving Entities (DAE LSE) that partner with Investor-Owned Utilities (IOU). The CAPP Allocations outlined in this CPN update CAPP Allocation determinations communicated in CAPP-PN 2021-10 that were reported in error. Additionally, this CPN denotes the change to Just Energy Solutions' eligibility status for CAPP assistance and the transfer of Just Energy Solutions' electric customers to Pilot Power Group, Inc.

Please see [Attachment 1](#) for the updated spreadsheet containing each DAE LSE's allocation determination and reported arrearages. This spreadsheet supplements the CAPP Utility Arrearages and Allocations spreadsheet last updated in CAPP-PN 2021-06-E2.

For guidance on the distribution of CAPP Benefits to DAE LSE customers, please review CAPP-PN 2021-08 and CAPP-PN 2021-06 for prioritizing the issuance of CAPP Benefits across the four customer priority categories.
