Instructions

The 50 States, District of Columbia, and the Commonwealth of Puerto Rico and other territories are required to use the LIHEAP Household Report-Long Form in providing household counts for the designated Federal Fiscal Year. The Report consists of the following six sections that are to include unduplicated household counts for both LIHEAP assisted and LIHEAP applicant households.

- I. Number of Assisted Households
- II. Number of Assisted Households by Poverty Interval
- III. Number of Assisted Households by Vulnerable Population
- IV. Number of Applicant Households
- V. Number of Applicant Households by Poverty Interval
- VI. Number of Assisted Households by Young Child Age Category

Except for Section VI, the household counts for LIHEAP assisted and applicant households are required under the LIHEAP statute. Section VI is optional. If LIHEAP funds are used for any other type of service not listed in the sections below, describe the service and the total number of households assisted with that service in the Notes Section.

The required data for LIHEAP assisted households for each State are included in the Department's LIHEAP annual Report to Congress. The required data are also used in measuring LIHEAP targeting performance under the Government Performance and Results Act (GPRA) of 1993, as amended by the GPRA Modernization Act of 2010. As the reported data are aggregated, the information in this report is not considered to be confidential.

To separately identify the impact of supplemental federal LIHEAP funding, HHS expanded the LIHEAP Household Report - Long Form for FY 2022. For each item in the report, the revised form now includes four lines.

- The first line is for grantees to report information for all applicable households regardless of funding source. This is consistent with what grantees were required to report in the past. Grantees should report the total count of households, counting each household once if it received that type of assistance during FY 2022.
- The second line is for grantees to report information for all applicable households that were assisted with CARES Act supplemental LIHEAP funding. Include households that received a benefit that was fully or partially funded with CARES Act funds. Exclude households that did not receive a benefit that was fully or partially funded by CARES Act funds.
- The third line is for grantees to report information for all applicable households that were assisted with American Rescue Plan Act (ARPA) supplemental LIHEAP funding. Include households that received a benefit that was fully or partially funded with CARES Act funds. Exclude households that did not receive a benefit that was fully or partially funded by American Rescue Act Plan (ARPA) funds.
- The fourth line is for grantees to report information for all applicable households that were assisted with other federal supplemental LIHEAP funding (not including CARES Act or ARP Act funding), if any. Include households that received a benefit that was fully or partially funded with other Federal Supplemental LIHEAP funding (not including CARES Act or ARP Act funding). Exclude households that did not receive a benefit that was fully or partially funded by other Federal Supplemental LIHEAP funding (not including CARES Act or ARP Act funding).

To report this information, grantees will need to identify which funding sources were used to provide each household with each type of LIHEAP assistance during FY 2022.

During FY 2022, grantees received regular LIHEAP funding and CARES Act supplemental LIHEAP funding, but did not receive other federal supplemental LIHEAP funding.

Therefore, lines labelled as reserved for other supplemental funding are locked from editing.
