The purpose of this 2022 CAPP Program Notice Revision (22CAPP-PN-03-R) is to advise state energy utilities on a change to the 2022 CAPP Data Transfer Rules (DTRs). The specific change to the DTRs now requires that all dollar values contained within the 2022 CAPP Application electronic data file (.CSV file) be stated as cents or rounded to two decimal places. This change impacts the following data fields of the 2022 CAPP Application electronic data file:

- Utility Natural Gas Arrearage
- Utility Electric Arrearage
- Utility Combined Arrearage
- LSE Arrearage
- Total Customer Arrearage

The new requirement is reflected in the updated 2022 CAPP DTRs Version 2.1, accessible in the 2022 CAPP Portal via the following link:

<https://cacsdforce.com/csdportal>

Please be advised the indicated change is effective with the issuance of this Program Notice Revision and any uploaded 2022 CAPP Application .CSV files not in conformance with this standard will be returned to the Utility Applicant for correction and resubmission.
